Course: PHIL 008 Section: B01 - INTRODUCTION TO LOGIC
Instructor: Taylor Cyr

Question # 20: Please comment on how the instructor's teaching helped your learning of the material in this course. Please give serious thought to your comments. Your comments will be studied by the professor after the grade and performance evaluation of your work have been submitted and may be used in changing future offerings of the course. In addition, these comments are placed in the instructor's file and may be used for purposes of evaluating the instructor's teaching. The information collected will remain anonymous.

- The material was clearly presented and easy to understand. The practice problems helped solidify the information. Thank you for teaching this class, I really enjoyed it.
- Taylor Cyr was an excellent instructor who was very motivated and interacted well with others. He was very concise with his instructions and he helped me attain a great understanding of the material he taught. I would highly recommend him to my friends because he is one of the best instructors I have ever had here at UCR. Great work Taylor!
- Professor Cyr was very well organized and made the class more interesting than I thought it would be. He was able to describe concepts clearly and made it easy to understand by showing us exactly how to do problems and how we should approach them. One of the better professors I have had at UCR. PHIL008 was a very interesting, yet challenging course.
- This class was very interesting. The professor moved along at a very steady pace and was willing to accommodate his office hours if students could not make it to the set time. Homework and assignments were easy if students attended class. Overall an enjoyable learning experience.
- The course was great my only comment would be that you went a little quick over the material but it was understandable given that the amount of time we had in class and how fast we were moving in summer session but overall it was a great class.
- Professor Cyr is very clear and organized, and made what seemingly was a dry subject, into something that was interesting and fun to learn.
- The instructor was very helpful and explained the concepts slowly and clearly. The examples were easy to understand and his slides were well organized.
- Initially I was not interested in taking the course, however once the course began I enjoyed it and ended up learning a lot. Thank you.
- The instructor was engaging and well prepared for every lecture; surprisingly never seemed to tire of talking about the material and happily answered any ambiguities in the course throughout. Instructor never came unprepared and always showed his control over problems to be solved in class, giving credibility to how knowledgeable he was over the subject matters.
- Taylor is an excellent professor! He is very precise and thorough with his lectures. He is very helpful and is always trying to motivate the students. Overall I think he will be an excellent professor for this class.
